Institute has well established facility for NSS/Sports/Other Outreach Programmes

404 responses

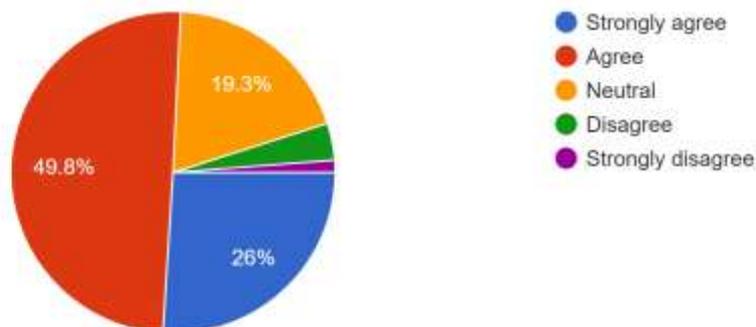

Institute encourages students for higher education and research activities

404 responses

Institute has formal alumni association and conducts alumni interactions regularly

404 responses

Suggestions for Betterment

- No suggestions
- Better canteen facilities shall be made available
- Yes of course students should attendance all the class
- Improve the infrastructure of the class rooms and make it more attractive.
- Classroom attendance should taken seriously
- Improve Students Behaviour Not skills
- Washrooms can be a lot better.
- Teachers should take strict actions against the students who disturb the whole class and don't let others to study.
- The administration needs patience while interacting with students.
- water coolers are not working properly so we should fix it & washroom near auditorium is really not in good position
- Everything is good
- Canteen area should have more space to sit
- Everything is well and good!!
- Need to focus more on education than other co-curricular activities. Syllabus isn't complicated on time. People play games in lab without internet and watch cartoons in lab with internet connection.. Please take care for their future too.
- Institution Must set a high number of seats for students with % 70 n above to enhance the quality of student in campus
- Need to improve canteen bring new foods
- Girls Washrooms of BBA building are not clean. Other facilities are great overall
- College timings should be changed
- Everything Is being good In our institutions but just to be some where there to give importance to each student
- Provide hard copy notes
- Canteen should be more hygiene. More food items should be added.
- More focus on academics than extracurricular activities would be appreciated. I don't attend college regularly so I'm not anyone to speak but that's just a piece of my mind.
- Better placement and equal opportunity to every student.
- More activities and short trips should be organized it is fun.
- Need to focus on studies more than other activities..and no facilities for sports and no coaches available except for football..
- I'll give 3/10 marks to this college.
- This is perfect college there should not be any changes
- No suggestion because teachers are already excellent in his work and provide all facility and activity to his student by all teachers
- This institute is simply waste of time, Meaningless activities all the time just for low grade fun. Need a major upgrade, this institute follows local and need a major change to act global.

Students Satisfaction Survey (Academic Year 2018-19)

- Even things are going good....
- I have seen that our institute is managing the overall education curriculum tremendously there is nothing to improve.
- The best institute I have ever seen
- Few computers in computer lab, don't work properly and are not updated.
- Improve canteen area
- Water cooler facility
- Everything is ok. But my suggestion is Institute focus to provide the practical knowledge
- Update computer system, notes
- Please remove the old useless furniture so that there will be more space for parking and for subjects like accountancy please don't bring new faculty, giving necessary knowledge is more needed than any other knowledge
- Some projectors are very dull, and canteen should have method of online payment like Paytm and Google pay
- There should be houses(students should be divided) like there were in the schools
- for the time of admission such that there should be no more chaos when forming a team
- Internal evaluation should be fair and I believe it purely random distribution of marks so as to save teacher's valuable time. There is no value for the true reason for being late in preliminary exams, whereas teachers do find fake reasons more appealing.
- All good!
- For some theoretical subjects ,more innovative ways should be used so that students can understand well
- Canteen should be hygienic as most of the students regularly visit the canteen
- More practical knowledge should be imparted
- Do less Partiality and give chance to everyone fairly and instead of internal examination take our unit wise presentation and give internal marks on that basis.
- Give chances to new more...
- Please install swipe machine & focus little bit in teaching.
- I will be better if they focus on teaching rather than promoting crescendo.
- Suggestions provided by Prof. Mahesh Joshi are the best.
- Teachers should not force students to participate in shows (dance, fashion shows, flash mobs).. it should be their personal choice to participate or not.. college is more focused on events and less focused on education - This is not my saying but 80% of students say this..
- Teachers are biased at the time of giving internals, even students who never performed in any event gets full internals and students who traveled so much to get entries participated in events gets less.. even after visiting college and marking attendance regularly..
- Tirpude is hated by so many people in Nagpur only because of these reasons..
- More practical learning
- Institute should conduct activities that can improve student's professional life institute should teach that activities only which can help them in their career. And institute should really have sports and coaches as well to guide them
- Everything is up to date..

Students Satisfaction Survey (Academic Year 2018-19)

- Placement should be done on the basis of the student capabilities and not by biased, partial connections
- All Good no suggestions
- Just bring the correct teacher for the subject
- Institute should upgrade teaching techniques by introducing digital technologies.
- Disciplinary actions must be improved for library and other places of the campus, especially for the library because for most of the students it is a room for leisure and entertainment. Parking areas must be monitored properly as many students park their vehicles in between the paths and passages.
- Water dispensers in BBA and BCCA buildings are not maintained at all, most of the times they are out of service and are very dirty from the inside. The dispensers are like that for a very long time period.
- The equipment in BCCA LAB is way too older than what we are supposed to get as per the present technology in the market. PCs in the LAB are very slow in terms of processing. The furniture of the LAB is also very outdated and it needs to be replaced as the chairs are very small and uncomfortable and the floor is full of cracked tiles that need to be replaced.
- And please it is a request to remove the scrap material and old furniture from the parking near the BCCA and BBA building.
- DEEP INSIDE IN MY MIND AND HEART I FEEL THAT WE DESERVE BETTER FACILITIES IN RETURN OF WHAT WE PAY AS OUR COLLEGE FEES.
- That's all.....Thank you.
- Plz provide us internship..
- The washrooms needs further efforts for cleaning... the faculties needs to better understand the students and conduct more seminars or workshops on how to crack an interview ... about the aptitude tests which are conducted by the companies.... then inviting experts to talk about specific agendas from our field... more field interactions as need to make the student capable enough to face and talk at an interview... library is good canteen is also good and so is the parking area..
- It's overall perfect...
- Compulsory Power point Presentation for MBA and BBA students every day.
- News reading session everyday and discussion on various business projects and Startup initiative.
- Compulsory attendance for CRT Classes for all students and knowledge enhancement program.
- everything is good
- More placement
- No suggestion
- Time table should be followed by the teacher, sudden change in time table must be reported before that day.
- Numerical must be explained from easier to harder once so that students can understand easily.
- Agree
- Better canteen
- Library rules must be strict students from BBA come for enjoying their leisure time in library . Some students just come to disturb others and use mobiles in library without earplugs.

Students Satisfaction Survey (Academic Year 2018-19)

- Toilets are not clean and drinking water filters are not maintained at all they are rusted from inside.
- The computers are outdated and the chairs are all broken .Tiles in the lab must be replaced because they are all coming out of floor.
- Lectures are not regular as teachers don't teach with interest and are busy in events.
- Teachers must focus on practical knowledge than forcing students to take part in events.
- College must focus on teaching than engaging in events like crescendo.
- Parking is filled with scrap material and is without shade and the physical education teachers are not allowing us to park although their students don't come to college a single day .
- Students who come to college regularly don't get full internal but those students who take part in events and don't come to college a single day get full internals
- Teachers Needs to Understand the Problems of a Student if he or she is doing a job because of financial condition, and that it why he or she cannot attend the classes regularly then they are giving very less internals after taking the clearance money including for the classes also.
- Some sports activity
- It's ok But Need Some Teachers To be Little bit Strict towards The Students who Disturb the Class while Lecture is going on
- Students who come regularly don't get full attendance but students who don't come to college single day get full attendance after attending only not class
- It is good institute.
- Some Teachers are not able to maintain silence in the class
- Internal criteria is not too Fair
- There should not be any partiality between ex-Tirpude and other colleges students
- Nothing to say much
- Overall I love the college environment and till date I'm suggesting people to take admissions here
- Maintain water purifier on 2nd floor BBA building near staff room its not working properly since two years.
- The parking is so small that my vehicle is not enough space for parking
- Nothing to say
- There no need for my suggestion
- Our teaching stuff is really good and college too
- It's good.
- No complaints about the teaching staff they are all good
- Best institute
- Students should be given equal opportunity for each and every test and event.
- College time should b after 10 am
- Less technical knowledge Faculty for BCCA.
- Give the students the required set of exposure which will in turn help the students to understand the real life scenario of job or startup as well
- With so much focus on students to teach

Students Satisfaction Survey (Academic Year 2018-19)

- More focus on development of student is required
- Teachers should not be rude...
- A background check on companies for campus is suggested.
- Please improve washrooms
- Improve the canteen area with proper seating area so that the students can spend more time in canteen rather than attending the boring lectures of some of the faculty's.
- The canteen area should be cleaner so that students spend more time there rather to attend boring classes
- College should approach those companies for placement which have at least satisfactory working environment. Placement should not be target but responsibility for the placement head and team.
