217 responses

Institute encourages students for higher education and research activities

217 responses

Institute has formal alumni association and conducts alumni interactions regularly

217 responses

Suggestions for Betterment

Students are instructed to provide few suggestions for improving overall performance of the institute (58 responses)

- Girls washroom is very compact and unhygienic too
- Should focus on placements in each Specialization.
- No need of any changes our institute provides the best facilities
- More practical learning sessions can be there.
- Overall performance is very good. I like everything in this institution. No changes required because it is hard to find that what to be improved.
- The institute gives best result during this pandemic or I get benefits from my collage for e-learning through other portal and they guide me where I need to get step for experience new things outside of collage learning like physical development.
- Nothing just to say best college ever
- No suggestions
- Online platform Placement
- You do good . Good do you
- All over the faculty and Institute are best but campus placement needs to be improved.
- I would say that teachers should more often give notes or worksheets for practice after the sessions as during this lockdown we are unable to understand the syllabus if we would get some notes we would be able to get the thing properly
- We should go with the new subjects to be added into the institute.
- most of the teachers are really good and understand students but some senior faculty only understand what college need but not about students
- Please give sports equipment to play when free period is there ☒
- Best college
- Start regular college online lectures are not worthy
- No such suggestions from my side. Glad to have such nice and friendly environment in college.
- Teachers are always ready to improve the students and also improve them self and agree for all these
- Revision after completion of each chapter, classroom pdf of each chapter should be more descriptive
- All the teachers are very cooperative and supportive

- Teachers are requested to look into cooperate skills developing activities such as case study as already they do just a little more approach is required
- Overall is good but placement opportunities were not good this year.
- No suggestion
- Sanitation facility in loo , furniture and canteen infrastructure
- Teachers should tell most of the things practical and should tell something motivational and should tell most of the things out of the books & syllabus.
- almost everything is pretty good couldn't think of a single thing for improvement ☺ ☐
- Every thing is ok...
- The institute is over all rated as best as compared to other institutes
- Love Tirpude!! No need of any improvement
- Its all good
- Excellent college
- Institute Should give more focus on placements by changing the placement cell and should assigned faculty for each specialization so that their will be all types of company in college .
- Washrooms could be better.
- Everything is best in Tirpude College. But stop online classes and start physical classes please it's a request. Nobody get to learn anything from this online classes.
- The overall performance of the college is excellent. That's why there's no need of any suggestions.
- Nice
- Please provide some more study materials related to our course subjects so we can do practice more and understand that subject more clearly.
- Everything looks good☑
- No suggestion, Already best
- Some teachers have not well adapted to online classes, they don't understand that in these classes they're probably not gonna get as much vocal reply but they still force the students to reply which just makes those forced interactions feel less natural, also it feels stupid that students can't pay their fees online during this pandemic, I mean they keep telling us to stay inside and maintain social distancing, and to not gather in big groups yet they're completely fine with having a 30-40 person line in the corridor to pay the fees, plus why do you only have one cashier, it takes so long for me to pay my fees here while you can just pay fees online in other colleges from the comfort of their home.
- It's all good about institute

- Faculties can give us some online projects on the same topics as the semester.
- Can give us a task on the basis of the subjects where can we apply knowledge of the academics.
- Can suggest internships as for WFH where we could know what things to use while working.
- At least each subject's online test could be conducted for once in a week, about the previous thought units.
- Well just only one thing please make / renovate our computer laboratory better than it's old before Covid 19 make it better place for BCCA students for their learning . Because our labs are in very poor condition so please make it better place for students. I don't know that higher authority will take any action against it or not but it is my duty to tell this thing about college. And there is nothing else teacher are absolutely very much corporative and else everything is nice in college.
- Should find a better app for conducting online classes in better way than zoom or google meet
