310 responses

### Institute encourages students for higher education and research activities

310 responses

### Suggestions for Betterment

Students are instructed to provide few suggestions for improving overall performance of the institute.

99 responses

- Students didn't get enough time to complete their Internship, going with both internship as well as online classes is difficult, many students who are going for full time internship aren't getting time for online classes at all, i will really like to institute to consider this matter
- You can improve Drinking Water facilities in each wing of the campus. Cleanliness must be maintained in Washrooms. College should have a stationery or printing facilities because shops are far away from the campus so it's easy for students to access these facilities who don't have vehicles to move around for such stuff.
- Please provide proper notes for study
- Can be more better.
- Must take interview practice within college for higher no. Of placements
- Teaching can be more interactive and interesting
- Providing important notes for study
- The Institute should engage students in activities which will enhance their professional skill, unlike dancing and fancy dress in events like TPL.
- Few teachers do discriminate... But rest of all my experience was good in this college
- Some things can get more organized
- All Good

- Nothing to be improved
- Everything is upto the mark
- Some more activities should conduct where we can present ourselves personality development activities programs
- Before starting offline classes, please have an Online facility for students that can't come to college to attend physical classes.
- All good
- They can give us study tour of big cities such as Mumbai Bangalore etc so that we can able to learn much better
- Self absorbed faculties were my main problem. I personally think teachers should be humble and kind to their students after they teach them something valuable, I don't expect bragging. The most intelligent man in Tirpude I've seen was Khullar Sir (I've only had chance to attend 1 class of His after the lockdown was opened for 1 week and the city was locked again after that). There may be men in that college more intelligent than Him which I haven't had the fortune to meet. Other than that all the teachers were like young naive people who all wanted to just prove themselves. I mean no offense; Tirpude can easily be the best college in Nagpur if the teachers are a bit more experienced (ex. Bapat sir. I don't know his full name but I know why he left the college, he was also a very educated man).
- Just an honest opinion and a way to become the best college in Nagpur.
- No suggestion, doing best
- Fee should be cut down by 50%
- Discipline & professionalism in students is very necessary.
- Teachers are very supportive. I Appreciate it.
- Should focus on weak and average students rather than good students
- The institute is well equipped and doing very nicely. Doesn't need anymore improvement.
- It's very good no need of improving
- Increase the number of washroom
- And facilities to do online admission and exam form submission as we suffer this year because of the last date issue and teachers were not accepting
- To make sessions more interactive make sure to have notebooks completed for having proper notes for future use.

- The college should start some sports activities
- Few professors need improving good explanation about study
- Research participation
- They should guide us for higher education more
- All the sector are covered
- Textbook teaching would be a better option rather than just going on with the slides...textbooks provide examples and solutions as well if we are stuck somewhere...ppts don't
- To have clean washrooms in the BBA building , to change the water cooler in the bba building so that the water should be chilled . To have a proper canteen in the premises.
- Its All Good And Best College in Nagpur for Management
- Due to the Covid situation the classes were online and it was very difficult to understand what has been taught in the online classes I request all the teachers that after the classes are physically started please teach us everything from basics because as being a science student in past it has become more difficult to get the concept and also due to online classes I wasn't able to understand properly what has been taught.
- Use better graphics and visual media to encourage student
- it's overall perfect
- The college needs a Sports teacher for teaching all the sports to the students.
- Want a little more stress and focus on academics from the college
- No suggestions
- Encourage the teacher to communicate with students ... More fluently ..
- Encourage the teacher to adopt more modern method to teach like use creative tools for teaching ... Like CASE STUDY or by showing REAL LIFE EXAMPLES / VIDEOS...etc
- Take regular feedback from students regarding the teachers whether they can understand what the subject teacher or particular subject teacher is speaking or teaching or not .....and whether the student can understand or not ..
- If a or many student/s are having difficulty understanding certain subject from a certain teacher then you must help in understanding their concerns or problems ... and act accordingly effectively and efficiently
- No improvement Need.....we need to improve are performance

- Not really... Everything is great
- All good as earlier
- Overall performance is good
- Overall time management between lectures and activities.
- All things are good
- I like everything about our teachers and institute..I don't have any suggestions as everything is good and well going
- It could be better if teachers conduct regular sessions regarding career options and how to land on internships etc.
- In the tough times of the pandemic our college conducted our yearly event on an online platform to engage students in learning practical knowledge of marketing and management. Its good as it is
- Everything is good
- They are already best
- No any suggestions. Tirpude institute is the best institute in the town.
- Very good
- Everything is good , I don't feel any kind of lacking, any performances or improvement about anything. Thank you .
- Repair computer labs and more facilities in the college.
